

OWNER PRESENTATION

A website the nursery can run with confidence

What it can do. How your team uses it. How you
stay in control.

JULY 2026

The website becomes part of the nursery's everyday rhythm

No developer queue. No scattered updates. No uncertainty about what is live.

01

Communicate quickly

Publish closures, reminders and scheduled news when families need it.

02

Keep information useful

Maintain menus, parent guidance and nursery stories in one place.

03

Protect quality

Use named accounts, clear roles, MFA and manager approval before publishing.

The owner controls the standards. The team controls the day-to-day updates.

Every staff member signs in as themselves

Invitation-only access and MFA create a clear line of accountability.

1

Open Staff admin

Use the footer link or go directly to /admin.

2

Use your own details

Never share a password or another person's account.

3

Complete MFA

Enter the current code from your authenticator app.

Early Years Education & Care

Staff admin login

Email address

Password

 Sign In securely

Invitation-only staff access. Multi-factor authentication is required.

Live admin sign-in

The owner sees the whole website at a glance

Quick actions, recent changes, menu status, content health and approvals — all in one screen.

Create an alert, choose its dates, then control when it appears

1 Write the action first

Use a clear title and a short message.

2 Set start and expiry

The alert removes itself when it is no longer relevant.

3 Choose the workflow status

Save a draft, submit for review or publish if your role allows it.

The screenshot displays the 'Squirrels Nurseries' website owner interface. On the left is a dark green sidebar with a logo at the top and a menu of options: Dashboard, Alerts, Food menus, News & blog, Knowledge hub, Gallery, Users, and Settings. Below the menu, it identifies the user as 'Squirrels Owner Super Admin' with a 'Sign out' button. The main content area is titled 'New content Create alert'. It contains a form with the following fields: 'Title' (with 'Alert Example' entered), 'Message' (with 'You can post an alert message here.' entered), 'Severity' (a dropdown menu set to 'information'), 'Optional link' (an empty text field), 'Starts' (a date/time picker set to '20/07/2026 10:11'), 'Expires' (a date/time picker set to '21/07/2026 10:11'), and 'Workflow status' (a dropdown menu set to 'Save as draft'). A green 'Create item' button is located at the bottom right of the form.

Edit each weekday once; families receive a clear three-week menu

IN THE ADMIN

Choose the week, then enter lunch, tea and allergens for every day.

ON THE WEBSITE

Families see the published rotation in a clean, readable format.

Write, format and illustrate a news post without touching code

The editor supports headings, lists, links and approved images.

Publish now or schedule the post for later.

Permanent answers stay organised, editable and easy to share

Create, edit, publish or archive guidance from one list.

Each published guide has a permanent link managers can send directly to families.

Upload an approved image, add accessible text, then publish

A screenshot of the Squirrels Nurseries website. The header includes the logo, contact number (01992 845485), opening hours (Open 8:00am - 6:00 pm, Mon-Fri), and a location note (Proudly based in Broxbourne for over 25 years). The navigation menu contains links for About, Parents, Learning & Care, News & Menus, Knowledge Hub, and Gallery. A prominent orange button labeled 'Arrange a visit' is on the right. The main content area features the heading 'Our nursery gallery' with a subtext 'A glimpse of the play, discovery and friendships that fill our nursery days.' Below this, a photo of a child's face is partially visible.

The upload form captures alternative text, caption, credit, display order and workflow status.

Consent must be confirmed before publication.

SQUIRRELS NURSERIES / WEBSITE OWNER PRESENTATION

09

The owner controls who can access the admin portal

Invite staff by email, choose a role, disable access and review account status — with mandatory MFA.

Every update follows the same four-stage path

01

Create

Add the message, dates, images and details.

02

Review

Check accuracy, tone, consent and links.

03

Publish

Managers or the owner make it visible.

04

Retire

Archive it when it is no longer useful.

Editors prepare. Managers approve. The owner retains final control.

Ten focused minutes each month keeps the website credible

- ✓ Clear anything awaiting review
- ✓ Check alerts and expiry dates
- ✓ Confirm all three menu weeks
- ✓ Review the latest public content
- ✓ Archive anything outdated
- ✓ Remove access when roles change

The nursery owns the content. The system supplies the structure and safeguards.
